ANTHONY TURNER

TECHNOLOGY LEADERSHIP

Claymont, DE | 302-259-0347 | iamtoneturner@gmail.com

Technology leader with 18+ years of experience connecting infrastructure, identity automation, systems integration, and service delivery. Career scope includes 17 campuses, 7,000 users, and supervision of 10 technology and support staff. Manage an annual budget of approximately $400,000; combine hands-on execution, vendor management, and technology talent recruitment.

PROFESSIONAL EXPERIENCE

Director of Technology

Charter School of New Castle | New Castle, DE | June 2019–Present

- Enabled automated student Google account creation through Clever IDM and coordinated rostering across Infinite Campus, Clever, and learning applications.
- Led fulfillment and distribution of 880 devices, including 80 staff devices and 800 student Chromebooks, within two weeks through structured planning and team coordination.
- Administer Microsoft 365 licensing through Active Directory groups, including a transition to 100 A3 staff licenses; use PowerShell for account creation and identity corrections.
- Lead Ubiquiti UniFi network modernization and troubleshooting, coordinating wireless infrastructure, vendor support, and deployment planning across campus.
- Manage annual E-Rate funding activities and security grant projects; experience includes applications, compliance documentation, and reimbursement requests, with recent work focused on procurement, vendor coordination, and project delivery.
- Manage technology budgets, vendor relationships, and procurement; evaluate proposals, prioritize spending, and coordinate implementation and service issue resolution.
- Oversee Chromebook procurement, inventory, repair workflows, and refresh planning; manage access control systems and coordinate security technology improvements.
- Coordinated the transition to eGoldFax, including line porting, departmental routing, and staff instructions for sending faxes by email.
- Develop disaster recovery plans, information security policies, and support procedures; train staff on enterprise systems and daily technology workflows.
- Reconcile enrollment and attendance records, train coordinators and administrators on reporting, and identify process gaps affecting state reporting accuracy.

PROFESSIONAL EXPERIENCE CONTINUED

Director of Technology

EastSide Charter School | Wilmington, DE | February 2015–June 2019

- Directed technology operations, maintaining network and security systems, server infrastructure, and domain policies.
- Managed vendor relationships and purchasing coordination; delivered staff training to support technology use in daily operations and instruction.

Hardware Manager and Technology Manager

Mastery Charter Schools | Philadelphia, PA | June 2008–February 2015

- Managed technology projects across 17 campuses serving 7,000 users and supervised 10 technology associates and support staff.
- Managed 11,000 devices as Hardware Manager, overseeing deployment, procurement, and service; coordinated 10–15 projects annually.
- Managed inventory audits, reporting, and analysis to support equipment accountability; cultivated vendor relationships that secured discounts, promotions, and improved service.

BUSINESS OWNERSHIP

Founder | School Rescue LLC

Provide K–12 technology consulting across infrastructure, systems integration, automation, and staff training. Manage EastSide Charter School's backend infrastructure and data backups. Recruited and hired its Director of Technology, who has completed two successful years in the role.

Founder and CEO | TotalGraphix LLC

Own a marketing and branding business serving schools and businesses with custom apparel, promotional products, and print advertising. Coordinate client requirements, pricing, design approvals, vendor relationships, and production workflows.

APPLIED AI

Advanced hands-on use of Claude, OpenAI/ChatGPT, Google Gemini, and NotebookLM for AI-assisted PowerShell scripting, troubleshooting, research, and prototyping. Validate generated scripts and outputs against system requirements and source material.

SYSTEMS

Active Directory, PowerShell, Microsoft 365, Google Workspace, Ubiquiti UniFi, VMware, Hyper-V, Windows, ChromeOS, Syncro, Spiceworks, ClassLink, Clever, Infinite Campus, and OneRoster.

EDUCATION

DeVry University | Coursework in Business Information Systems

The Art Institute of Philadelphia | Coursework in Multimedia Design
